interval of hours during which the kid is able to use Mofing. Finally, press on the last arrow to select the later the program can be used.

4-Statistics

Thanks to this function, you will be able to check with details what the kid does with the device. Just select if you want a report from the last week, today or all time.

5- How to transfer documents via USB ?

In order to do that, first connect your tablet to your computer with the cable provided in the packaging.

Then access the Settings, press on the "USB Connection" icon and press on "connect USB storage".

Now your tablet should appear on your computer's list of connected devices. Every different kind of documents can be placed in specific folders.

a) upload music, videos and photos

- Copy music in the folder "music_kids",
- Copy videos in the folder "video_kids"
- Copy photos in the folder "photo_kids".

b) Delete documents.

If you want to delete some documents, proceed the same way and cut the documents you don't want to see any more in the various folders.

For the formats that can be accepted for every kind of documents, it depends on your Android device so please check it in the manual of your hardware

6- More information

Enjoy Mofing Kids experience !

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
